

Notice of Filing

Job Title: Pega Business Functional System Architect

Job Duties: Review and conceptually understand all business requirements to support project implementation. Perform coding and development of requirements in the PEGA technology. Perform design and development of Business Process Management (BPM) and Business Rule Engine (BRE) applications using PEGA PRPC. Design and develop end to end class structure, user interface, process flows, activities, decision and declarative rules and security management. Design the Rule Set Hierarchy as per the business scope. Design and develop data models, access groups and UI properties. Migrate rules across various environments. Identify and communicate any logic and coding issues identified during development. Resolve coding issues. Complete Quality Assurance review of all coding to ensure outcome is consistent with requirements. Perform performance tuning of PRPC applications using Rules Inspector, Clipboard, Tracer, PAL and Log Analyzer. Will work in Pleasanton, CA and/or various client sites throughout the U.S. Must be willing to travel and/or relocate.

Salary: \$133,000/year

Employer: Aroha Technologies Inc

Work Location: 5000 Hopyard Road, Suite 415, Pleasanton, CA and/or various client sites throughout the U.S.

Apply to: Aroha Technologies Inc, 5000 Hopyard Road, Suite 415, Pleasanton, CA 94568
